Harvard T.H. Chan School of  
Public Health  
dinner provided

**Tuesday, December 5**

6:00 - 7:30pm  
Harvard Global Health Institute  
dinner and happy hour provided

This interest group brings together graduate students from across Harvard University to exchange research ideas in a multidisciplinary setting as they engage with challenging problems related to global health. Hosted by HGHI, graduate students have the opportunity to give "works in progress" presentations, presenting ongoing research or ideas for future projects. On occasion, practical sessions for engaging in research and project work will be offered. We welcome students from all disciplines and all levels of graduate study to participate.
